STEP 1.

STEP 2.

MECHANISM OPERATING INSTRUCTION WHILE SITTING:

- (A) **SEAT HEIGHT ADJUSTMENT:**
To raise the seat height lift your weight off the seat and adjust the seat height handle located on the bottom of the seat. To lower, center your weight in the center of the seat and adjust the seat height handle. Release at desired height.
- (B) **SEAT TILT ADJUSTMENT:**
Pull out Lever, allows the seat and backrest to be using in 3 position and Push in the handle to lock.
- (C) **TILT TENSION ADJUSTMENT KNOB:**
To adjust, sit on chair with seat tilt adjustment unlocked. For less tension, turn tension knob counter-clockwise. For more tension, turn tension knob clockwise.
