

Office Shredder

40530 Dahle Professional Paper Shredder

Known for its power and waste capacity the Dahle 40530 Office Professional Paper Shredder is designed to accommodate the needs of most professional offices. This cross-cut machine offers a 1/32" x 7/16" particle size and is able to shred to security level P-6 standards. It's a perfect shredder for destroying financial statements, health records, and any other confidential information that should not be seen by others.

Dahle's 40530 is built with a 12" feed opening and can shred up to 10/12 sheets of paper at a time. This machine can accommodate both letter and legal size paper with ease. All you need to do is decide what documents to shred and the shredder will take care of the rest. With a 38 gallon waste capacity, it's ideal for central shredding in offices where document destruction occurs on a daily basis.

With frequent use, energy conservation is an important consideration. All Dahle Office Professional Paper Shredders come equipped with the revolutionary SmartPower Energy Management System. This multi-stage system reduces power consumption

after ten minutes of sitting idle (sleep mode), and completely powers down after an additional 20 minutes of inactivity. Dahle SmartPower will appeal to those interested in conserving energy as well as reducing electrical costs.

State-of-the-art features make the Dahle 40530 paper shredder run smoothly and reliably. Steel chain and gears provide maximum power to the solid steel cutting cylinders for slip free, powerful shredding. An EvenFlow Lubricator automatically dispenses just the right amount of oil on the cylinders for continuous lubrication and peak performance.

Dahle paper shredders are German Engineered using the latest technology and finest materials. The end result is a quality machine and peace of mind in knowing your Dahle shredder will provide many years of trouble free operation.

Features

- Feed Opening: 12"
- Sheet Capacity: 10/12
- Shred Size: 1/32" x 7/16"
- Security Level: P-6
- SmartPower Management
- EvenFlow Lubricator

Built in EvenFlow Lubrication System evenly oils the cutting cylinders, reducing the risk of a paper jam.

A steel chain and gears provide slip-free power to the solid steel cutting cylinders for maximum shredding power.
